If you have questions or require additional information, contact an authorized Emulex® technical support representative at tech.support@emulex.com, 800-854-7112 (US/Canada toll free), +1 714-885-3402 (US/International), or +44 1189-772929 (Europe, Middle East, and Africa).

Resolved Issues from Firmware Version 2.01a10

1. **Added support for disabling out-of-order frame handling.**

2. **Added support for 4G loopback tests.**

3. **Added support to disable the laser during a firmware core dump.**

4. **Corrected an issue that occurred when injecting Ref Tag errors that caused an invalid PCIE address.**

5. **Sequence Responder bit is no longer incorrectly set after the first XFR-RDY.**

6. **Corrected an issue with ABTS retries and BA_ACC checking not being performed (ABTS retry in Target mode).**

7. **Corrected an issue with the adapter hanging during link bounce due to the incorrect release of SPECIAL_TX_BUFFER.**

Known Issues

There are no known issues for this release.
