Preface

This guide gives a general overview of the server.

See The Bull support web site for the most up-to-date product information, documentation, firmware updates, software fixes and service offers:
<http://support.bull.com>

Intended Readers

This guide is intended for administrators and operators.

Regulatory Declarations and Disclaimers

Safety Compliance Statement

This product is in compliance with the following directives:

European Union (EU) Certification

Low voltage directive 2014/35/EU: standard EN 60950-1

Electromagnetic Compatibility Statement

This product is in compliance with the protection requirements of the following directives:

EU Certification

EMC directive 2014/30/EU : standards EN 55024, EN 55032, EN61000-3-2, EN 61000-3-3, IEC 62638-1:2014

International Certifications

USA: FCC Part 15 Class B

Canada: ICES-003 Class B

Japan: VCCI Class B

Australia and New Zealand: AS/NZS CISPR 32 Class B

Waste Management

This product has been built to comply with the following directives:

ROHS

2011/65/EU, 2015/863/EU

REACH

Regulation (EC) N°1907/2006 of the European Parliament and the 18/12/2006 REACH Council

Safety Notices

Important Read the safety notices before undertaking any procedures described in the documentation.

All safety notices used in the documentation are listed in the Multilingual Safety Notices Guide, 86 X1 12FL and are classified by severity:

- D0xx**  **DANGER**
D0xx
A *Danger* notice indicates the presence of a hazard that has the potential of causing death or serious personal injury.
- C0xx**  **CAUTION**
C0xx
A *Caution* notice indicates the presence of a hazard that has the potential of causing moderate or minor personal injury.
- W0xx**  **WARNING**
W0xx
A *Warning* notice indicates an action that could cause damage to a program, device, system, or data.

Each safety notices is prefixed with a unique identification number. This can be used to locate the corresponding translated version in the Multilingual Safety Notices Guide, 86 X1 12FL.

Chapter 1. Related publications

This list is not exhaustive. Useful documentation is supplied on the Resource & Documentation DVD(s) delivered with the system. You are strongly advised to refer carefully to this documentation before proceeding to configure, use, maintain, or update your system.

Documentation Sets

- BullSequana Edge Customer Documentation Set, 86 AP 63PA
contains all the customer documentation relative to the BullSequana Edge server.
- BullSequana Edge Field Documentation Set, 86 AP 64PA
contains all the field documentation relative to the BullSequana Edge server.

Read me First

- Resource and Documentation DVD
contains the tools and documentation required to configure, operate and maintain the system.
- Generic Site Preparation Guide, 86 A1 85FP
explains how to prepare a Data Processing Center for Atos servers, in compliance with the standards in force. This guide is intended for use by all personnel and trade representatives involved in the site preparation process.
- Atos Servers Multilingual Safety Notices Guide, 86 X1 12FL
lists, in different languages, the notices referenced in the documentation procedures.
- BullSequana Edge Description Guide, 86 A1 65FR
gives a general overview of the server. This guide is intended for use by administrators and operators.

Installation

- BullSequana Edge Installation Guide, 86 A1 67FR
explains how to install the server. This guide is intended for use by qualified personnel in charge of installation.

Operation

- BullSequana Edge Server Hardware Console Reference Guide, 86 A1 05FS
explains how to use the BullSequana Edge hardware console. This guide is intended for use by system administrators and operators.
- BullSequana Edge Management Console User's Guide, 86 A1 99FR
explains how to use the BullSequana Edge management console. This guide is intended for use by system administrators and operators.
- BullSequana Edge Getting Started Guide, 86 A1 07FS
explains how to connect, configure, and boot the server. Some basic operations are also described.

Maintenance

- BullSequana Edge Customer Service Guide, 86 A1 93FR
explains how to replace the Customer Replaceable Units (CRU). This guide is intended for use by system administrators and operators.

- BullSequana Edge Field Service Guide, 86 A7 94FR explains how to replace the Field Replaceable Units (FRU). This guide is intended for use by qualified personnel.

Chapter 2. BullSequana Edge description

2.1. Overview

BullSequana Edge servers are based upon the MI (Machine Intelligence) architecture. They exploit the Intel ® Xeon ® platform, Skylake-D processor.

BullSequana Edge servers are designed to be modular, easy to maintain, and to support video security and digital signage verticals developed with the machine intelligence program. They are compact devices that can be installed in a closet or in an overhead location.

Each BullSequana Edge module is 2U high and includes one processor that can support up to four memory modules. There are two PCIe slots (two x16 generation 3) and two mini PCIe slots.

Three wireless technologies are supported:

- 2.4 GHz - 5 GHz dual-band WiFi (Dual-band WiFi)
- Long Range Wireless Area Network (LoRaWAN)
- Long Term Evolution 3G/4G Global System for Mobile Communications (LTE 3G/4G GSM)

BullSequana Edge servers are air-cooled and managed by a single Baseboard Management Controller BMC).

2.2. General description

 Exploded view

Mark	Description	Quantity
A	Top cover	1
B	Disk SATA or SDD	2
C	Power Supply Unit (PSU)	1
D	External antenna	3
E	Fan module	3
F	Fan filter	3
G	Bezel	1
H	Processor air duct	1
I	Accelerator air duct	1
J	Processor	1
K	Memory module	4
L	Accelerator	Up to 2
M	Mini PCIe cards	Up to 2

2.3. Front components

Mark	Description	Quantity
A	Fan Filters	3

2.4. Rear components

Mark	Description	Quantity
A	PCIe x16 board	2
B	External antenna 2 (Dual-band WiFi or LoRaWAN or LTE 3G/4G GSM)	1
C	External antenna 1 (Dual-band WiFi or LoRaWAN or LTE 3G/4G GSM)	1
D	External antenna 0 (BMC WiFi)	1

2.5. Internal components

2.5.1. First layer components

 Front view

Mark	Description	Quantity
A	Disk	2
B	Processor air duct	1
C	Accelerator air duct	1

Note Disks assemblies and air ducts must be removed to access to the base layer components.

2.5.2. Base layer components

 Top view

Mark	Description	Quantity
A	Antenna connection	3
B	Power Supply Unit (PSU)	1
C	Fan	3
D	Intrusion detection switch	1
E	Motherboard	1

2.5.3. Motherboard

 Top view

Mark	Description	Quantity
A	USB connector (BMC WiFi dongle)	1
B	Mini PCIe slot	2
C	Memory module slot	4
D	Processor assembly	1
E	Accelerator slot	2

2.5.4. Fans

 Top view

Mark	Description
A	FAN 0_GPU
B	FAN 1_CPU
C	FAN 2_PSU

2.5.5. Memory modules

 Top view

Mark	Memory module	Channel	Board slot
A	0	0	CH-A
B	0	1	CH-B
D	0	2	CH-D
E	0	3	CH-E

2.5.6. **Disks**

Top view

Mark	Description
A	Disk 0
B	Disk 1

2.5.7. Accelerator slots

Slot numbering

Mark	Description
A	PCIe generation 3 x16 slot 0
B	PCIe generation 3 x16 slot 1

Options

Various accelerator options are available for the PCIe slots:

- The slots are left empty
- Up to two Graphic Processing Unit (GPU) cards
- Up to one 150 watt Field Programmable Gate Array (FPGA) card
- Up to two 75 watt Field Programmable Gate Array (FPGA) cards

2.5.8. Mini PCIe slots

Slot numbering

 Top view

Mark	Description
A	Mini PCIe slot 0
B	Mini PCIe slot 1

Options

The mini PCIe slots can house either dual-band WiFi or LoRaWAN or LTE 3G/4G GSM cards.

2.5.9. Antenna connections

 Top view

Mark	Description
A	BMC WIFI dongle
B	External antenna 0 : BMC WiFi
C	External antenna 1 : Dual-band WiFi or LoRaWAN or LTE 3G/4G GSM
D	External antenna 2 : Dual-band WiFi or LoRaWAN or LTE 3G/4G GSM

Chapter 3. Buttons, LEDs and ports

3.1. Front buttons and LEDs

3.1.1. Buttons

 Front view

Mark	Description
A	Power On/Off

3.1.2. LEDs

 Front view

Mark	Color	Description
A	Solid green	Module power on status / OS boot
	Blinking green	Module standby status / BMC boot
B	Solid blue	Module Identification

F	Blinking amber	Ethernet link activity	RJ45 port 0
G	Blinking amber	Ethernet link activity	RJ45 port 1
H	Green	Link 1 Gb/s Ethernet up	RJ45 port 1
I	Green	Link 1 Gb/s Ethernet up	RJ45 BMC
J	Blinking amber	Ethernet link activity	RJ45 BMC
K	Red	Error	N/A
L	Red	Intrusion	N/A
M	Blinking green	SATA activity	SATA 1
N	Blinking green	SATA activity	SATA 0

3.2.3. Ports

 **Rear view**

Mark	Port type	Port name
A	USB 3.0	Port 1
B	USB 3.0	Port 0
C	SFP+ - 10 Gb/s Ethernet	Port 1
D	SFP+ - 10 Gb/s Ethernet	Port 0
E	RJ45 - 1 Gb/s Ethernet	Port 1 - host
F	RJ45 - 1 Gb/s Ethernet	Port 0 - host/BMC
G	RJ45 - 1 Gb/s Ethernet	BMC
H	220V power supply	N/A

Appendix A. Technical description

A.1. General technical specifications

Operating Limits	
Ambient air temperature	+5°C to + 45°C Gradient 20°C / hour
Relative humidity (non condensing)	5% to 90% Gradient 5%/hour
Pressure	70 to 106 kPa
Elevation	Sea level < 3000 m
Non-Operating Limits	
Ambient air temperature	<-20°C and >60°C
Relative humidity (non condensing)	<5% and >95% (Gradient 30%/h)
Moisture content	1 to 29 g/m3
Shipping Limits	
Operating air temperature	-20°C to + 60°C Gradient 25°C/hour
Relative humidity (non condensing)	5% to 95% Gradient 30%/hour

A.2. Dimensions and weight

BullSequana Edge	
Height	2U - 86 mm
Width	430 mm
Depth	290 mm
Weight	10 Kg

A.3. Module technical specifications

Electrical Specifications	
Each BullSequana Edge module is equipped with 1 PSU	
Rated Current	6 - 3 A
Power consumption	Typical: < 500 W
Thermal dissipation	Maximum: 600 W
Rated Voltage Range	100 - 240 V
Rated Frequency Range	50/60 Hz
Environmental Specifications	
Noise	If the temperature value at the entry of the module is 25°C, if the generated power is 75% of the TDP maximal value and without fan filter: 40dB

A.4. Server Technical Description

Processor	
Number	BullSequana Edge: 1 processor
Type	Intel® Xeon® family: Skylake-D
Architecture	
Platform	Based on Intel Yuba City Platform
Memory	
Minimum / Maximum	BullSequana Edge: up to 256 GB
Type	DDR4 RDIMM, LR-DIMM Up to 2667 MT/s
Slots	4x slots per module
I/O slots per module	
Bus slots	2x16 Gen3 PCIe slots
I/O ports per module	
USB port	2 USB 3.0
Ethernet port	2x 10 GbE and 3x 1 GbE ports
Disk bays per module	
Disk	2x 2.5" SSD\HDD or 3.5" HDD
GPUs per module	
GPU	2x NVIDIA GPU cards

A.5. Antenna specifications

A.5.1. Dual-band WiFi

Dimensions	
Unfolded height	108 mm
Attached height	78 mm
Maximum width	10 mm
Minimum width	8 mm
Attached depth	31 mm
Technical specifications	
Frequency	2.4 - 5.8 GHz
Voltage Standing Wave Ratio	≤ 1.8 : 1
Gain	2.5 dB
Polarization	Vertical
Impedance	50 Ω
Max Power	20W

A.5.2. LoRaWAN

Dimensions	
Unfolded height	195 mm
Attached height	172 mm
Maximum width	13 mm
Minimum width	6 mm
Attached depth	38 mm
Technical specifications	
Frequency	868 MHz
Voltage Standing Wave Ratio	<2.0
Gain	3 dBi
Polarization	Linear
Impedance	50 Ω

A.5.3. LTE 3G/4G GSM

Dimensions	
Unfolded height	195 mm
Attached height	172 mm
Maximum width	13 mm
Minimum width	6 mm
Attached depth	38 mm
Technical specifications	
Frequency	700 - 2700 MHz
Voltage Standing Wave Ratio	≤ 2.5
Gain	5 dB
Polarization	Vertical
Impedance	50 Ω
Max Power	50W
