

Installation Environment

WARNING

Ensure that the operational environment conditions given hereafter are satisfied.

Operational Environment

- **Altitude:**
 - Operational: -30 to 1524 m (-100 to 5000 ft)

- **Temperature (*1):**
 - Operational: 5 to 35 degC (max rate change: 10 degC/h)
 - Non-operational: -10 to 43 degC (max rate change: 10 degC/h)

- **Relative Humidity:**
 - Operational: 20 to 80%
 - Non-Operational: less than 95%, non-condensing at 25 to 30 degC

*(*1) If installed in a closed or multi-unit rack assembly, the operating ambient temperature of the rack environment may be greater than room ambient. Therefore, consideration should be given to installing the equipment in an environment compatible with the maximum ambient temperature specified in this section.*
