", "base_version=V8R8.7.0  
"
```

List of fixes

General fixes

- HIPER: Fixed an issue that causes errors attempting to create/delete partitions or modify profiles. Errors include REST0126 and HSCL0036. This problem impacts all users that applied Service Pack 1 to Version 8 Release 870 base.
- Fixed an issue preventing keyboard layout changes to take effect.

Installation
